VS-3651112

The systematic approach to calculating and reporting product carbon footprints,
„Calculation of Product Carbon Footprint (PCF)“

Sortimo International GmbH
Dreilindenstraße 5
86441 Zusmarshausen
Germany

has been validated according to ISO 14064-03:2019 for compliance with the requirements of ISO 14067:2019, in particular Annex C (normative).

The certification body TÜV NORD CERT GmbH hereby confirms as a result of the audit, assessment and certification decision according to ISO 14064-3 that the responsible organization has developed appropriate methods to determine the:

“Eco-Systems SR5 & Globelyst” + system boundaries cradle-to-gate”

calculated and reported in accordance with ISO 14067:2019.

Customer-specific: The system boundaries include the following life cycle phases (raw material extraction, production, (=cradle-to-gate) transport, use, end of life (=cradle-to-grave)

This test statement is valid exclusively for the specified area of application and in conjunction with the objectives and criteria for the assessment as well as the conclusions of TÜV NORD CERT GmbH (for further information, see audit report). It is particularly important to emphasise that this audit statement confirms the calculation and reporting method developed by the client with regard to the ISO 14067:2019 system, but does not constitute a verification of a single specific carbon footprint of a product (CFP).
