Vehicle Equipment for professionals

More than just a shelf!

Versatile & tailor made for your needs

Our innovative solutions offer you maximum flexibility and order in your daily work. With Sortimo, you always have the right system at your fingertips to make work easier and more efficient. We design your vehicle equipment to suit your needs - for more productivity and less stress at work!

Individual solutions for professionals

Jumbo unit - for optimum use of the load space

The jumbo unit is a compact XL drawer, which is ideal for the rapid storage of heavy and bulky items. The telescopic rails ensure high resilience in daily use. The large drawer front.

The Jumbo unit can be used as an underfloor drawer system or a standalone solution depending on your requirements. The stand-alone version of the Jumbo Unit can either be equipped with a SoboGrip Prosafe top panel or covering tray which can provide additional storage space in your vehicle. Jumbo Units of the same size can also be installed above each other to create even more storage space.

Multi-function pull-out-the heavy-duty put-out with many functions

Thanks to a load capacity of up to 200kg, the multifunction pull-out from Sortimo can provide an efficient way to store heavy and bulky items within the vehicle. The Sortimo multi-function pull-out element is ideal for use in light commercial vehicles or estate cars and can be used as a drawer or loading platform. The platform can be extended and locked into place up to 2/3 of its total length. This ensures easy access to the load even with a forklift or crane.

Smooth running guides and castors on call bearings ensure the platform can be conveniently operated even under maximum load. When closed, the loading platform is securely locked. The load can be easily secured to the platform with a strap and our ProSafe load securing system.

Individual solutions for professionals

Floor, wall & ceiling cladding - for maximum load space protection

Floor and wall linings form the basis of a professional vehicle conversion and make a significant contribution to maintaining the value of a vehicle through its protective function. With vehicle-specific sets in different designs, Sortimo offers the right solution for every application.

Floor cladding SoboGrip

Robust floor with non-slip coating for all types of load.

Wall cladding SowaFlex

- Protects the vehicle from the inside against any damage.
- Impact and scratch-resistant
- Tailor-made for the vehicle
- Moisture and chemically resistant
- 60% lighter than wood
- 100% recyclable honeycomb material

ProSafe - Professional load securing

The integrated ProSafe load securing lashing system allows the professional and legal compliant securing of loads. It offers a holistic system that extends from the base plate to the roof rack and is compatible with the original lashing points of the vehicle manufacturers.

Individual solutions for professionals

TopSystem - Bespoke roof racks for vans

With a sophisticated design, the Sortimo TopSystem creates additional storage space and enables effortless transport of even long and bulky goods. Easy handling saves time and facilitates ergonomic loading and unloading. In addition, the TopSystem can be customised with an extensive range of accessories to meet individual needs.

Electrical expertise - Energy supply in the vehicle

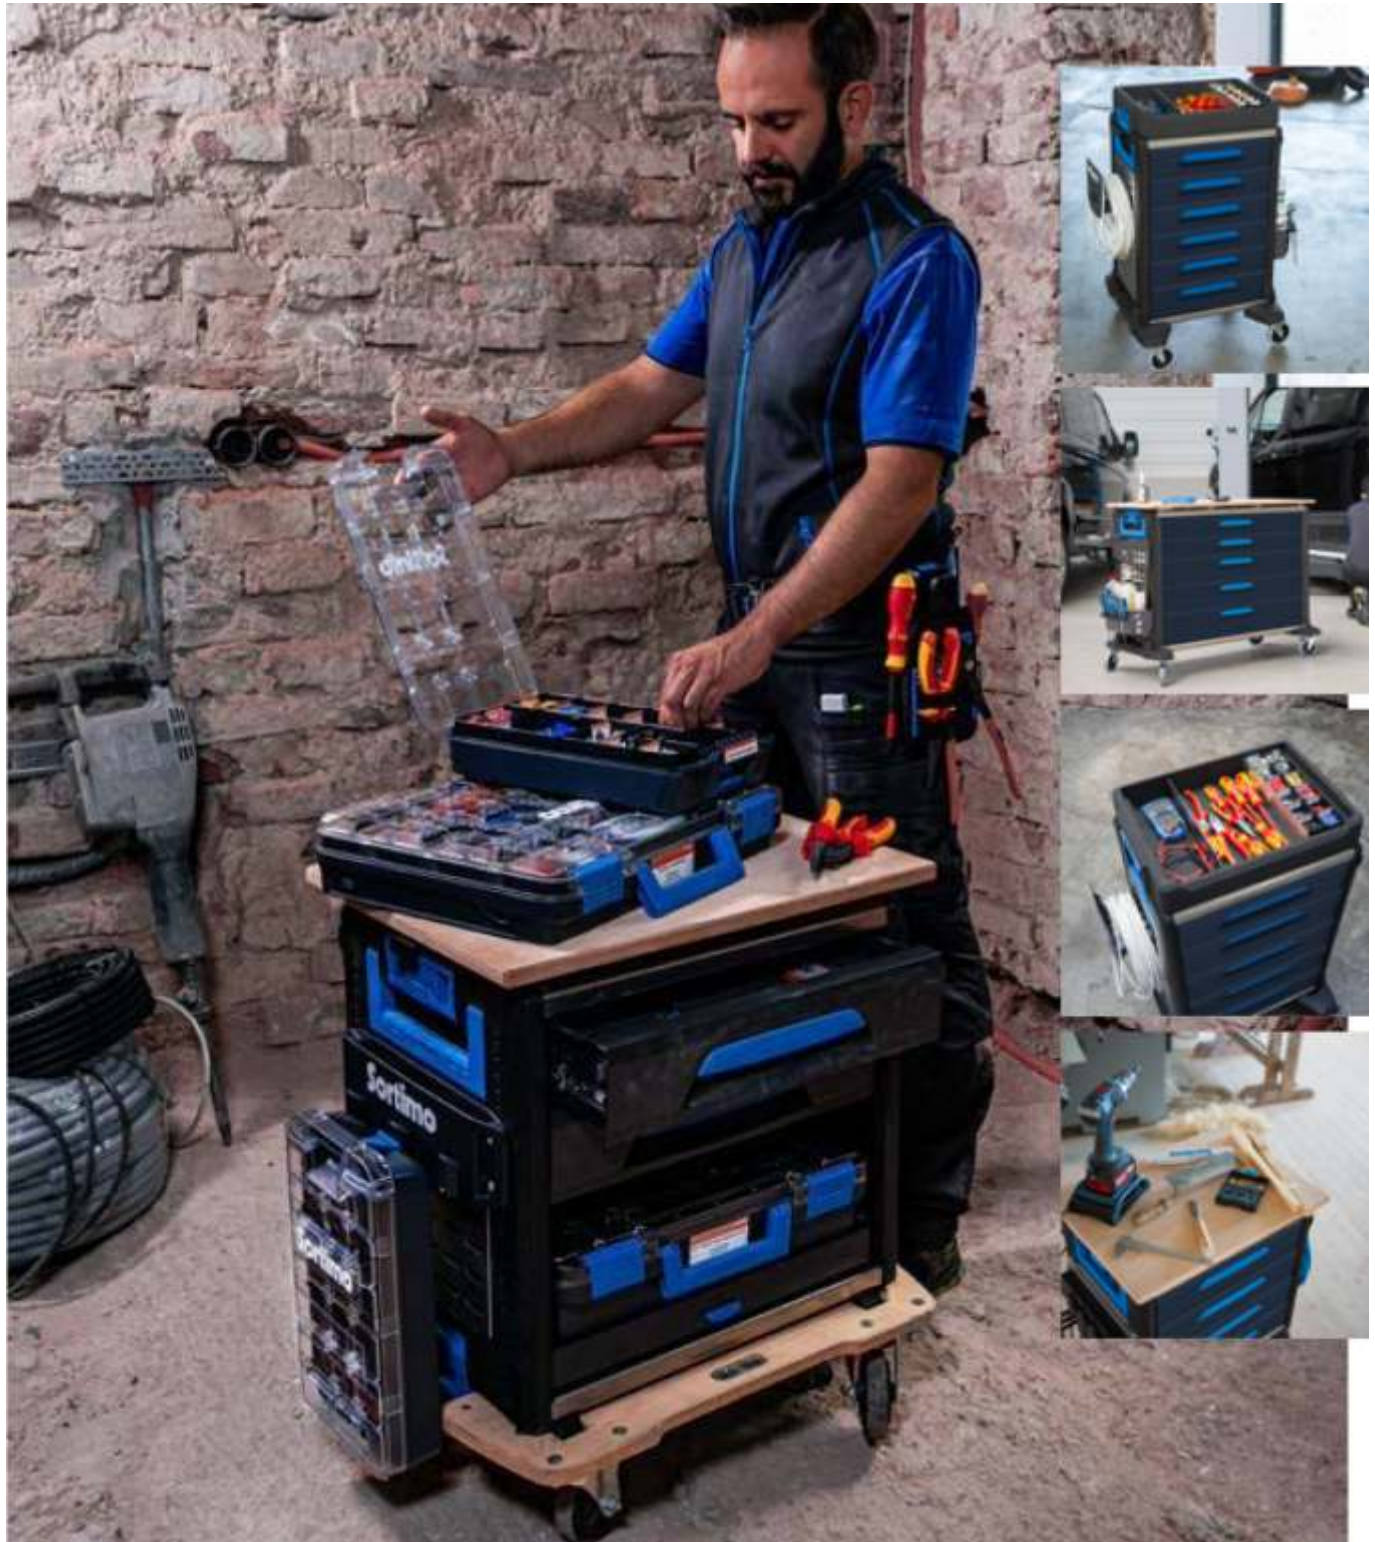

The Sortimo electrical accessories ensure reliable power and lighting on the go, so you can work efficiently wherever you are. with products such as inverter, lighting and power distribution units, you always create optimal and safe conditions.

Individual solutions for professionals

WorkMo - Mobile Workstation

Thanks to its modularity, the Sortimo WorkMo can be individually assembled and can therefore be used in every conceivable situation: whether a workshop trolley, workshop shelf, mobile workstation or workbench.

ProClick - Endless possibilities with just one click

The ProClick system can be used in a variety of ways, as the tool bags can be attached to both the ProClick holders and Sortimo ProSafe system. As a result, ProClick products are also suitable as accessories for vehicle Equipment such as tools and accessories utilising the SR5 side profile or Globelyst uprights.
